

*How does the Prepaid Visa Card work?*

Cardholders can use the Card just like a regular Visa card up to the designated value. Just sign the receipt for purchases. The card can be used online or with 1-800 purchases.

*What makes the Prepaid Visa Card different from other gift cards or certificates?*

Your prepaid Visa Card can be used anywhere a Visa card is accepted - at more than 25 million merchants worldwide.

*Is a Prepaid Visa Card a credit card?*

No, the card is prepaid. However, when presented at a merchant for payment you must provide your signature on the receipt - similar to a credit card transaction.

*Can I make a purchase for more than the amount remaining on the card?*

Yes, you can pay the difference between the purchase price and the remaining value of the Prepaid Visa Card with cash, check, and a credit card or a Check Card. This is subject to the merchant's procedures.

*What do I do if the Card is declined?*

This means that the amount authorized by the merchant is above the remaining balance on the Card. Be sure the merchant is only authorizing an amount that is equal to or less than the current balance.

*How long can I use the Prepaid Visa Card?*

You can use your Card until the balance is zero or the Card had expired.

*What happens when I suspend all the funds on my Card?*

Your card will no longer be accepted as a form of payment. We recommend you destroy your Card after the balance is zero of the Card expires.

*Do I need a PIN number to use my Card?*

No. This is a signature Card and no PIN is issued. It cannot be used at ATMS.

*Are any fees charged to my balance for using the Card?*

A lost or stolen card replacement fee is charged if the Card is replaced. See the Card Holder Agreement Terms and Conditions provided with the Card for the fee schedule.
